Dear Sir:-

If you have any thought of selling your patent which was issued to you Feb. 10th, there would probably be better opportunities to do so in Chicago than anywhere else in the United States and on a commission basis, compensation depending on ability to sell.

I shall be glad to hear from you, stating what you expect to realize and just what condition of development the invention is now in.

An early reply will be to your advantage.

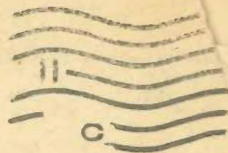

Very truly yours,

O. J. Bailey
